

### **Vision**

We aim to be one of the leading companies in the Engineering product segment.

### **Values**

- ✓ Build relationships with customers.
- ✓ Leadership by Commitment & Innovation

### **Quality**

We ensure the quality of our products is best in the industry

## Solar Modules Mounting Structures

### Solar Water Pump Structures

- Dual Axis Manual Tracking Mechanism as per MNRE specifications
- Easy & smooth Manual Tracking Mechanism ensures tracking by single person
- 100% Hot Dip Galvanised as per MNRE specifications
- All our designs Approved by IIT Engineering Division
- Manufacturing range of 3 MMS to 10 MMS. Suitable for all Pump Capacities

### Solar Rooftop Structures

- Available in fixed tilt and adjustable seasonal tilt types
- Available in Hot Dip Galvanised and Pre Galvanised Steel
- Available in different ranges RCC Roof Top Structures, Super Structures, Ballast Structures

### Solar Power Plant Structures

- Available in fixed tilt and adjustable seasonal tilt types
- Available in Hot Dip Galvanised and Pre Galvanised Steel
- Available for KW to MW Scale Projects

**Solar Street Light Poles**

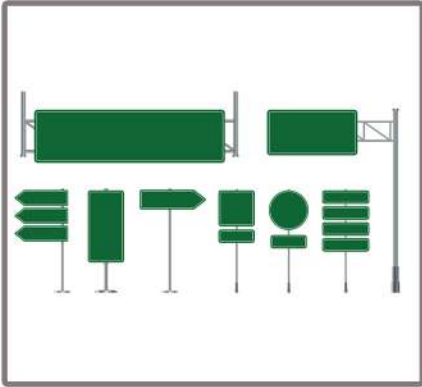

**Octogonal & Conical Street Light Poles**

**Customized Lighting Poles**

**Display Boards & Sign Boards**

**Guardrails**

**Fencing Equipments**

**Foundation Bolts**

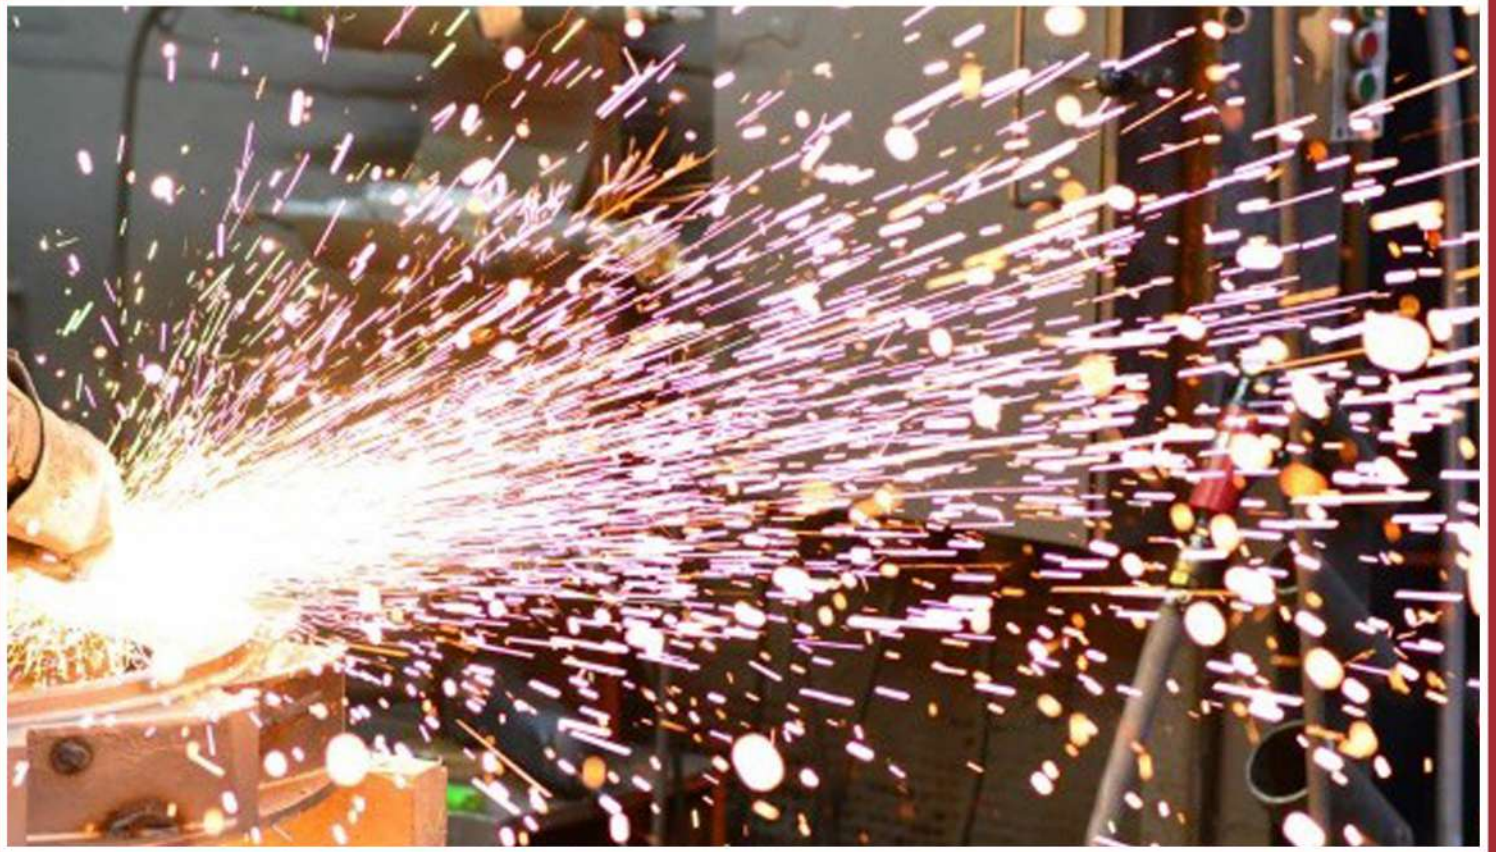

**GI Earth Strips**

**Agriculture Bore Clamps**

**Our Aim is to set a Benchmark  
in terms of Perfection and reliability.**

**FACTORY & OFFICE**

H.No. 6-9/5/A/1, Sy No. 480/11/A, Gowdavally Village , Gundlapochampally Municipality, Medchal Malkajgiri District, Hyderabad, Telangana, 501401
